

# Stonebank

## Capability Statement

Project Management and Advisory

[stonebank.com.au](http://stonebank.com.au)

# Stonebank provides independent management and advisory services for complex property developments.

We specialise in project management, development management and advisory services across build-to-hold and build-to-sell assets. Our teams embed within client organisations to manage risk, strengthen decision-making and provide delivery certainty.

## Our Approach

Our approach is client-oriented, grounded in real-time problem-solving and deep integration within client teams. We take time to understand each organisation's culture, objectives and constraints, allowing us to work as a trusted extension of your team and support clear, well-informed decision-making.

## Why Stonebank

We provide director-level service on every project, supported by a skilled team and a trusted network of industry experts. With roots in commercial construction, Stonebank brings disciplined risk management and a best-for-project focus to complex challenges.

# Meet the Team

**Chris Adams**  
**Director**

Chris is a seasoned property and construction leader with over 25 years of experience across both commercial contracting and client-side advisory. He has delivered complex, large-scale developments across residential, health, hospitality, retail, commercial and public infrastructure sectors.

With a blend of technical depth and strategic insight, Chris brings clarity to complexity—resolving commercial risk, streamlining delivery, and building confidence through structured decision-making. His leadership is grounded, collaborative, and focused on securing outcomes that align with long-term asset value.

M: 0408 851 556  
E: [chris.adams@stonebank.com.au](mailto:chris.adams@stonebank.com.au)

**Steve Rodd**  
**Director**

Steve is an accomplished property professional with two decades of experience leading the delivery of high-value, large-scale developments across the residential, healthcare, hotel, retail, industrial and mixed-use sectors.

Steve brings a strong commercial lens to project leadership, with deep capability in risk mitigation, budget and program control, stakeholder coordination, and construction management. Known for his high-performance, high-care approach, Steve integrates commercial insight with disciplined process and stakeholder alignment. He is adept at simplifying complexity, resolving challenges early, and sustaining project momentum through structured oversight and sharp reporting.

M: 0421 078 383  
E: [steve.rodd@stonebank.com.au](mailto:steve.rodd@stonebank.com.au)

**Tim Gunthorpe**  
**Director**

Tim has close to 20 years' experience in project management consulting, having delivered a wide range of projects across all major real estate sectors. He brings deep expertise across the full project lifecycle, including project strategy, procurement, design and construction management, contract administration, and superintendence.

Tim has held senior roles on projects ranging from highly serviced laboratory environments to large-scale retail and cultural precincts. Known for his calm, structured and collaborative leadership style, Tim ensures teams remain aligned and focus on achieving outcomes within strict time, cost and quality parameters, while maintaining strong stakeholder relationships throughout delivery.

**M:** 0416 977 367  
**E:** [tim.gunthorpe@stonebank.com.au](mailto:tim.gunthorpe@stonebank.com.au)

**Jason Uzice**  
**Strategic Advisory**

Jason is a seasoned property executive with extensive experience leading large-scale development, masterplanning, and strategic property portfolios across the commercial, residential, mixed-use, and retirement living sectors. He has held senior executive roles across major property owners, developers, and corporate organisations, overseeing projects exceeding \$200 million and portfolios valued at over \$1 billion.

Jason specialises in strategic advisory, governance frameworks, asset optimisation, rezoning, and complex stakeholder engagement, working closely with Boards, executives, government agencies, and regulators to unlock value and strengthen long-term asset performance.

**M:** 0413 413 071  
**E:** [jason.uzice@stonebank.com.au](mailto:jason.uzice@stonebank.com.au)

**Livee Tan**  
**Senior Project Manager**

Livee brings project management and development planning expertise, complemented by a background in architecture and strategic design across precinct and building-scale projects. With over 15 years' experience across public, commercial, residential and mixed-use sectors, she provides client-side leadership focused on governance, stakeholder engagement, and the alignment of design intent with program, cost and high-quality, durable outcomes.

Known for a calm, structured approach, Livee operates as a trusted delivery lead, bridging strategy and execution across complex, multi-stakeholder public and private sector projects.

M: 043 0042 789  
E: [livee.tan@stonebank.com.au](mailto:livee.tan@stonebank.com.au)

**Ross Saunders**  
**Technical Director – Construction**

Ross is a highly experienced construction professional with over 45 years' experience delivering major commercial, retail and mixed-use developments. Progressing from hands-on site roles through to senior leadership, he brings deep expertise in construction methodology, sequencing, quality assurance and contractor performance.

Ross provides specialist construction and commercial advisory support, with a strong focus on risk mitigation, defect prevention, programme certainty and build quality. He is highly regarded for identifying issues early and guiding teams toward practical, buildable solutions on complex or high-risk projects.

M: 0419 557 683

# Where We Deliver

Stonebank delivers projects across metropolitan Melbourne and regional Victoria, working with public and private sector clients across a range of asset types.

● Live projects as at Dec 2025

● Completed projects

● Completed regional projects (prior to Stonebank)

## Our Clients

LUISANT—

# Community

We are also proud to contribute our expertise through service on industry committees, including the PCA Retirement Living Committee, the PCA Planning and Building Committee, and the Future Leaders Committee. These roles allow us to contribute to policy discussion, share knowledge, and collaborate on initiatives that advance industry standards and practices.

Stonebank is committed to actively contributing to the industries in which we operate. Our team regularly participates in key industry events such as the National Retirement Living Awards, and various other Property Council events. This ensures we remain at the forefront of emerging trends, innovations, and best practices. These events also provide valuable opportunities to connect with peers, share insights, and strengthen relationships within the professional community.

Beyond our professional commitments, Stonebank is dedicated to making a positive impact in the wider community. We actively support and participate in charitable initiatives such as various Property Industry Foundation events – the Tour de PIF and the PIF Charity Regatta, contributing both time and resources to causes that align with our values.

# Our Services

## Project Management

Our approach to project management focuses on risk management, strong processes, and strategic decision-making to ensure optimised outcomes.

## Development Management

Stonebank plays a key role in strategic planning and execution for projects across various sectors, from inception to completion.

## Construction Technical Advisory

We leverage our commercial construction expertise to proactively monitor and advise, ensuring high-quality outcomes and preventing latent defects.

## Project Management Framework

We provide expert guidance on implementing effective Project Management Office (PMO) strategies by optimising frameworks, systems and structures.

## Commercial Advisory

We excel at identifying risks and opportunities, crafting strategies to optimise project management, and driving commercial outcomes.

## Contract Superintendence

We proactively manage the superintendent role, focusing on minimising disputes and delivering the best outcomes for our clients.

## Buildability Advisory

Our genesis in commercial construction places us ideally to push buildability and procurement solutions for your projects.

## Impactful Outcomes

We deliver impactful outcomes through cost savings, timeline efficiency, risk mitigation, and quality improvements.

Stonebank's technical advisory services are delivered across a broad range of sectors and project scales, from live operational environments to large, complex developments.

Drawing on experience in construction technical advisory, project management and development management, our teams transfer lessons learned between sectors to anticipate risk, resolve complexity and provide clear, practical advice that strengthens delivery outcomes.

# Project Management

Stonebank provides end-to-end project management services that give our clients certainty over timeframes, budgets, and quality. We act as the single point of accountability, coordinating contractors, consultants, and suppliers to deliver seamless outcomes. Our approach is proactive and detail-driven, identifying risks early, resolving issues quickly, and keeping every stakeholder aligned.

Project Management services we offer include:

- Risk assessment and management strategies
- Pre-construction site management
- Procurement strategy
- Stakeholder management
- Display suite construction management
- Principal project requirements and contractor tender
- Early works package management
- Value management
- Contractor management
- Contract superintendence
- Cost control and reporting
- Tenancy coordination and delivery
- Defects management
- Commissioning monitoring
- Project handover and close out
- Construction strategy

## Project Management Framework

We specialise in helping organisations set up or refine their PMO and project management frameworks for success. Our tailored solutions provide the tools, processes, and governance needed to align with your goals, streamline operations, manage risks effectively, and ensure consistent, high-quality project delivery.

# Development Management

Our development management service covers the full lifecycle of a project – from initial feasibility through to completion and handover. We oversee site acquisition, planning approvals, procurement strategies, and project delivery, always with a focus on maximising value and minimising risk. Acting as an extension of our client's team, we manage consultants, approvals, and commercial negotiations to keep developments on track and commercially viable.

## Feasibility & Front-End Strategy

Stonebank supports clients at the earliest stages of development to test feasibility, shape viable options and inform investment decisions. Our feasibility work integrates site constraints, planning considerations, massing and yield testing, cost inputs and delivery risk to provide clear, decision-ready advice, ensuring projects proceed with a well-understood planning pathway, commercial viability and delivery strategy.

Development Management services we offer include:

- Project brief development
- Development programme and critical path
- Due diligence and site acquisition
- Project cashflow and budget management
- Development options and feasibility analysis
- Market analysis and revenue forecasting
- Consultant scoping, request for proposal and engagement
- Design briefing and management, options analysis and master planning coordination
- Town planning strategy and application management
- Community and stakeholder engagement
- Heritage and statutory services authority coordination
- Subdivision management
- Project marketing and brand creation coordination
- Marketing and sales/leasing strategy
- Project settlement management / project handover
- Divestment strategies
- Project reporting

# Construction Technical Advisory

Stonebank's Construction Technical Advisory team provides specialist, independent advice across the full construction lifecycle, supporting complex projects from feasibility through to completion. The seasoned construction professionals, led by Ross Saunders, bring deep experience across commercial, health, retail, residential and mixed-use developments.

Our point of difference is our deep experience in planning, procuring, delivering and completing large scale construction projects including:

## **Principal's Construction Advisor, Clerk of Works, and Delivery Management**

- Quality monitoring
- Compliance inspections
- Monitoring of procurement and material submissions

## **Buildability Advisory**

- Construction advisory during the feasibility and design phases
- Material selection and procurement
- Staging and construction logistics

## **Programming**

- Progress health check
- Programming and methodology

## **Procurement Advisory**

- Contractor shortlisting and selection
- Specialist procurement including overseas procurement

## **Risk**

- Project risk assessment
- Risk mitigation strategy

## **Commercial Advisory**

- Insurance claim advisory
- Commercial and contract advisory

- Dispute management
- Distressed projects
- Contractor insolvency management and contract turn-around
- Project re-commencement strategy and management

## **Completion Management**

- Completion management plans and operational transitions
- Defect management

## **Projects include:**

- VMCH St. Clare Retirement Precinct
- Amazon MEL-9
- Local: South Melbourne
- Crown Melbourne Central Energy Upgrade
- Chadstone Shopping Centre (various stages), Malvern East
- The Glen, Glen Waverley
- Eastland Shopping Centre, Ringwood
- The Royal Victorian Eye and Ear Hospital Redevelopment, East Melbourne
- Adina Hotel, Southbank
- Sheraton Hotel, Melbourne

**Sport & Recreation**

**Residential**

# Commercial & Workplace

Stonebank delivers commercial and workplace projects with precision, ensuring they are completed on schedule, within budget, and to specification. We excel in managing fit-outs, refurbishments, and new builds, coordinating every detail to minimise disruption and achieve seamless outcomes.

The Stonebank team has extensive experience in commercial projects. Amongst the projects our team have contributed to are:

- Elizabeth North, Melbourne CBD
- Gate 8, East Melbourne
- Compass Business Park, Seaford
- 55 Southbank Boulevard, Southbank
- The Bendigo Centre, Bendigo
- Shell Australia Office Fit-Out, Melbourne CBD
- Shell Australia Office Fit-Out, Albury
- Shell Australia Office Fit-Out, Brisbane City
- Shell QGC Office Accommodation, Gladstone
- Australia Fair Office Tower Refurbishment & Fit-Out, Southport
- GPT Riverside Lift Modernisation, Brisbane City
- AECOM Office Fit-Out, Fortitude Valley

# Commercial & Workplace

Elizabeth North

## Elizabeth North

\$240M | 2019-2020 | PDG Corporation

Completed in 2022, the project is a landmark 70,000m<sup>2</sup> mixed-use life-sciences, commercial, and retail development.

### Key services provided

- Project Management
- Superintendancy

### Outcome

Prior to Stonebank. Coordination and design with Toyota, the University of Melbourne, and CSL Limited, navigation of Heritage Victoria requirements, and delivery with tier 1 construction partner.

## Gate 8

\$40M | 2021-2024 | H.CO Property

This amenity rich seven storey commercial office development is designed to foster a sense of belonging and community among tenants.

### Key services provided

- Project Management

### Outcome

Prior to Stonebank. Delivery of the project in 2024, under budget, while overcoming challenging regulatory dynamics.

Gate 8

The Bendigo Centre

## The Bendigo Centre

\$100M | 2004-2007 | Bendigo Bank

12,500sqm integrated office fitout for Bendigo and Adelaide Bank.

### Key services provided

- Project Management

### Outcome

Prior to Stonebank. Delivered on budget and programme, with a very happy client upon completion.

## Seniors Living

In the seniors living sector, we navigate complex requirements and sensitive operational environments with care and efficiency. Our proactive management ensures facilities are delivered to the highest quality, supporting both resident wellbeing and operator needs.

The Stonebank team has extensive experience in seniors living projects.

Amongst the projects our team have contributed to are:

- St. Clare, Kew (103 units)
- St. Francis on the Park, Ivanhoe East (58 units)
- Retirement Living, Wantirna South (300 units)
- Hubert Opperman Retirement Village, Mulgrave (175 units)
- John Flynn Retirement Village, Burwood East (300 units)
- Springtree Lifestyle Resort, Cobram (200 units)
- Springtree Lifestyle Resort, Mansfield (200 units)
- Springtree Lifestyle Resort, Yarrawonga (200 units)

John Flynn Retirement Village

# Seniors Living

St. Clare

## St. Clare

\$250M | 2022-2025 | VMCH

Delivery of four buildings containing 103 luxury seniors living independent apartments, as well as generous communal amenity.

### Key services provided

- Principal's Representative
- Principal's Construction Advisor

### Outcome

Nightingale 2.0

# Residential

Galleria

## Galleria

\$80M | 2016-2019 | Private Developer

This 15-storey landmark development occupies a central location in Glen Waverley and comprises 267 apartments above a vibrant ground-floor galleria of ten retail tenancies.

### Key services provided

- Project Management
- Superintendence

### Outcome

Prior to Stonebank. The result is a high-density, mixed-use precinct that enhances the local urban fabric while delivering strong commercial and residential outcomes.

## Nightingale 2.0

\$N/D | 2017-2019 | Nightingale Housing

The second completed Nightingale project, designed by Six Degrees Architects and featuring an impressive average 8.2 star NatHERS rating.

### Key services provided

- Construction Management
- Insurance Claim Management

### Outcome

Prior to Stonebank. Successfully delivered a multi-award winning very low energy development on a difficult site adjacent Fairfield station.

Nightingale 2.0

150 Clarendon Street

## 150 Clarendon Street

\$160M | 2009-2010 | Salta Properties

Delivery of 86 luxury apartments across 12 floors and two basements.

### Key services provided

- Project Coordinator / Supervisor

### Outcome

Prior to Stonebank. Successful completion of the development to the highest quality standards.

# Governance & Commitments

Stonebank operates under independently certified management systems that support safe, consistent and compliant project delivery. These systems underpin our approach to quality assurance, environmental management and occupational health and safety, and are embedded across project governance, risk management and delivery processes.

Stonebank is progressing a Reconciliation Action Plan (RAP) to guide respectful engagement with Aboriginal and Torres Strait Islander peoples, support meaningful partnerships and strengthen internal capability building across the organisation.

ISO 9001:2016 – Quality Management  
ISO 14001:2016 – Environmental Management  
ISO 45001:2018 – Occupational Health & Safety Management  
Reconciliation Action Plan (RAP) – Reflect
